Re: Spotify biography revision

Overview

Hi there,

Below is my attached revision of the Spotify Biography and the revisions made as requested by Luke Anderson.

Revision Option 1

New to the city of Columbia, Missouri, Jared Cooper (vocalist) united with Brent Williams (drummer), Ryan Sapp (rhythm guitarist/vocals), Luke Anderson (lead guitarist/vocals), and Dylan Riggs (bassist) to establish the band Hang Your Hate (HYH). Hang Your Hate released their first EP, **Grip** (December 16th, 2022), which sits at 4,632 listens in 2023. Their second EP, **Brand New Nightmare**, was a pivotal turning point for the band. The zealous instrumentals and ardent lyricism create a strong dynamic that attracts various audiences. HYH continuously looks forward to expanding their discography, and they do not limit their self-expression in the music industry.

And as always, thank you for supporting our passion

- HYH

Luke Anderson lead guitarist/vocals

Ryan Sapp rhythm guitarist/vocals

Dylan Riggs bassist

Summary

I submitted two options for the biography. The difference between the two versions is the appearance of who does what in the band. The information is the same, but the presentation is different.

Thank you,
